ARBITRATION AGREEMENT

Article 1: Agreement to Arbitrate: It is understood that any dispute as to medical malpractice, including whether any medical services rendered under this contract were unnecessary or unauthorized or were improperly, negligently or incompetently rendered, will be determined by submission to arbitration as provided by state and federal law, and not by a lawsuit or resort to court process, except as state and federal law provides for judicial review of arbitration proceedings. Both parties to this contract, by entering into it, are giving up their constitutional right to have any such dispute decided in a court of law before a jury, and instead are accepting the use of arbitration. Further, the parties will not have the right to participate as a member of any class of claimants, and there shall be no authority for any dispute to be decided on a class action basis. An arbitration can only decide a dispute between the parties and may not consolidate or join the claims of other persons who have similar claims.

Article 2: All Claims Must be Arbitrated: It is also understood that any dispute that does not relate to medical malpractice, including disputes as to whether or not a dispute is subject to arbitration, as to whether this agreement is unconscionable, and any procedural disputes, will also be determined by submission to binding arbitration. It is the intention of the parties that this agreement bind all parties as to all claims, including claims arising out of or relating to treatment or services provided by the health care provider, including any heirs or past, present or future spouse(s) of the patient in relation to all claims, including loss of consortium. This agreement is also intended to bind any children of the patient whether born or unborn at the time of the occurrence giving rise to any claim. This agreement is intended to bind the patient and the health care provider and/or other licensed health care providers, preceptors, or interns who now or in the future treat the patient while employed by, working or associated with or serving as a back-up for the health care provider, including those working at the health care provider's clinic or office or any other clinic or office whether signatories to this form or not.

All claims for monetary damages exceeding the jurisdictional limit of the small claims court against the health care provider, and/or the health care provider's associates, association, corporation, partnership, employees, agents and estate, must be arbitrated including, without limitation, claims for loss of consortium, wrongful death, emotional distress, injunctive relief, or punitive damages. This agreement is intended to create an open book account unless and until revoked.

Article 3: Procedures and Applicable Law: A demand for arbitration must be communicated in writing to all parties. Each party shall select an arbitrator (party arbitrator) within thirty days, and a third arbitrator (neutral arbitrator) shall be selected by the arbitrators appointed by the parties within thirty days thereafter. The neutral arbitrator shall then be the sole arbitrator and shall decide the arbitration. Each party to the arbitration shall pay such party's pro rata share of the expenses and fees of the neutral arbitrator, together with other expenses of the arbitration incurred or approved by the neutral arbitrator, not including counsel fees, witness fees, or other expenses incurred by a party for such party's own benefit. Either party shall have the absolute right to bifurcate the issues of liability and damage upon written request to the neutral arbitrator.

The parties consent to the intervention and joinder in this arbitration of any person or entity that would otherwise be a proper additional party in a court action, and upon such intervention and joinder, any existing court action against such additional person or entity shall be stayed pending arbitration. The parties agree that provisions of state and federal law, where applicable, establishing the right to introduce evidence of any amount payable as a benefit to the patient to the maximum extent permitted by law, limiting the right to recover non-economic losses, and the right to have a judgment for future damages conformed to periodic payments, shall apply to disputes within this Arbitration Agreement. The parties further agree that the Commercial Arbitration Rules of the American Arbitration Association shall govern any arbitration conducted pursuant to this Arbitration Agreement.

Article 4: General Provision: All claims based upon the same incident, transaction, or related circumstances shall be arbitrated in one proceeding. A claim shall be waived and forever barred if (1) on the date notice thereof is received, the claim, if asserted in a civil action, would be barred by the applicable legal statute of limitations, or (2) the claimant fails to pursue the arbitration claim in accordance with the procedures prescribed herein with reasonable diligence.

Article 5: Revocation: This agreement may be revoked by written notice delivered to the health care provider within 30 days of signature and, if not revoked, will govern all professional services received by the patient and all other disputes between the parties.

Article 6: Retroactive Effect: If patient intends this agreement to cover services rendered before the date it is signed (for example, emergency treatment), patient should initial here. _____. Effective as of the date of first professional services.

If any provision of this Arbitration Agreement is held invalid or unenforceable, the remaining provisions shall remain in full force and shall not be affected by the invalidity of any other provision. I understand that I have the right to receive a copy of this Arbitration Agreement. By my signature below, I acknowledge that I have received a copy.

NOTICE: BY SIGNING THIS CONTRACT, YOU ARE AGREEING TO HAVE ANY ISSUE OF MEDICAL MALPRACTICE DECIDED BY NEUTRAL ARBITRATION, AND YOU ARE GIVING UP YOUR RIGHT TO A JURY OR COURT TRIAL. SEE ARTICLE 1 OF THIS CONTRACT.

ACUPUNCTURE INFORMED CONSENT TO TREAT

I hereby request and consent to the performance of acupuncture treatments and other procedures within the scope of the practice of acupuncture on me (or on the patient named below, for whom I am legally responsible) by the acupuncturist indicated below and/or other licensed acupuncturists who now or in the future treat me while employed by, working or associated with or serving as back-up for the acupuncturist named below, including those working at the clinic or office listed below or any other office or clinic, whether signatories to this form or not

I understand that methods of treatment may include, but are not limited to, acupuncture, moxibustion, cupping, electrical stimulation, Tui-Na (Chinese massage), Chinese herbal medicine, and nutritional counseling. I understand that the herbs may need to be prepared and the teas consumed according to the instructions provided orally and in writing. The herbs may have an unpleasant smell or taste. I will immediately notify a member of the clinical staff of any unanticipated or unpleasant effects associated with the consumption of the herbs.

I have been informed that acupuncture is a generally safe method of treatment, but that it may have some side effects, including bruising, numbness or tingling near the needling sites that may last a few days, and dizziness or fainting. Burns and/or scarring are a potential risk of moxibustion and cupping, or when treatment involves the use of treat larges. Bruising is a common side effect of cupping. Unusual risks of acupuncture include spontaneous miscarriage, nerve damage and organ puncture, including lung puncture (pneumothorax). Infection is another possible risk, although the clinic uses sterile disposable needles and maintains a clean and safe environment.

I understand that while this document describes the major risks of treatment, other side effects and risks may occur. The herbs and nutritional supplements (which are from plant, animal and mineral sources) that have been recommended are traditionally considered safe in the practice of Chinese Medicine, although some may be toxic in large doses. I understand that some herbs may be inappropriate during pregnancy. Some possible side effects of taking herbs are nausea, gas, stomachache, vomiting, headache, dianthea, rashes, hives, and tingling of the tongue. I will notify a clinical staff member who is caring for me if I am or become pregnant.

While I do not expect the clinical staff to be able to anticipate and edition all possible tisks and complications of treatment, I wish to rely on the clinical staff to exercise judgment during the course of treatment which the clinical staff thinks at the time, based upon the facts then known, is in my best interest. I understand that results are not guaranteed.

I understand the clinical and administrative staff may review my patient records and lab reports, but all my records will be kept confidential and will not be released without my written consent.

By voluntarily signing below, I show that I have read, or have had read to me, the above consent to treatment, have been told about the risks and benefits of acupuncture and other procedures, and have had an opportunity to ask questions. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.

Micro/Nano Needling Informed Consent:

Acupuncture and cosmetic Acupuncture involves the insertion of special needles into particular points on the body. Micro- and Nano-needles are used in sweeping motions over larger areas of the skin. There are some risks to treatment, including the possibility of bruising of the skin and/or slight bleeding, weakness, fainting, and/or the aggravation of symptoms existing prior to acupuncture treatment. There is little to no risk of infection when all needles are sterile. Acupuncture and Holistic Care uses only one-time use, sterile disposable needles. Acupuncture and Holistic Care does not provide primary care, nor Western (allopathic) medical care. Please see your medical doctor for those services and for routine check-ups. If you have a bleeding disorder, pacemaker, high blood pressure, or local infection we can still treat you but we should be made aware of your condition. By signing below you state that you have informed your acupuncturist of such conditions.

Privacy Policy

In accordance with HIPAA (Health Insurance Portability and Accountability Act) regulation and state laws, Acupuncture and Holistic Care takes the right to your privacy seriously. Therefore, we do not disclose any personal, health, financial, or any other information about you, or the services we provide to you to any third parties without your request or permission. This also includes online services we might provide, including access to your appointment information, user-ID, or password. As healthcare practitioners and administrators, we are also responsible for staying up-to-date with HIPAA regulations and for properly training all staff members and new employees to ensure that your personal health information is not compromised.

Result Guarantees:

While cosmetic Acupuncture has been clinically shown to work; we want to remind you that everyone's body, skin, and repair process works differently. The purpose of cosmetic Acupuncture is to create a younger and more vibrant appearance. Please be advised that this treatment is not a surgical procedure and cannot be compared to a surgical facelift or hair replacement.

Acupuncture and Holistic Care cannot be held liable or bear any responsibility for the actions or results of actions of its Members, nor can we provide guarantees as to the success, or results of treatments delivered by Acupuncture and Holistic Care.

Microneedling or Collagen Induction Therapy:

I consent to the treatment of Microneedling to be carried out upon myself. I have also been informed that Microneedling is the insertion of very fine needles into the skin for the purpose of rejuvenation.

The Microneedling treatment allows for controlled induction of hyaluronic acid, and/or growth factor serums, into the skin's self-repair process by creating micro injuries in the skin. These injuries stimulate new collagen production, while not posing the risk of permanent scarring. The result can be a smoother, firmer and younger looking skin. The skin needling treatments are performed in a safe and precise manner with a sterile needle head and are usually completed in 30-60 minutes.

Contraindications:

Absolute Contraindications: Accutane within 6 months, scleroderma, collagen vascular disease, cardiac abnormalities, blood clotting problems, platelet abnormalities, anticoagulation therapy (i.e.: Warfarin), active skin cancer, chemotherapy, steroid therapy, dermatological diseases affecting the face (i.e. Porphyria), diabetes and other chronic conditions, active bacterial infections, fungal infections, immune-suppression, scars less than 6 months old, and Botox/facial fillers in the past 2-4 weeks. Treatment is not recommended for patients who are pregnant or nursing.

initial	date						
Precautions: It is recommended to wait 3 months after skin cancer removal (consult surgeon if unsure), keloid or raised scarring, eczema, psoriasis, actinic keratosis, and herpes simplex.							
initial	date						

Side Effects Typically Include:

- Skin will be pink or red and may feel warm like mild sunburn, or tight and itchy. All of which typically subsides in 12 to 48 hrs.
- Minor flaking or dryness of the skin, with scab formation in rare cases.
- Crusting, discomfort, bruising and swelling may occur.
- Pinpoint bleeding.
- It is possible to have a cold sore flare if you have a history of outbreaks.
- Freckles may lighten temporarily or permanently disappear in treated areas.
- Infection is rare but if you see any signs of tender redness or pus notify the office immediately.
- Hyperpigmentation (darkening of the skin) rarely occurs and usually resolves itself after a month.
- Permanent scarring is extremely rare.

I have been informed about the treatment, procedure, indications, expected results and possible side effects.

Although the results are usually noticeable, I have been informed that the practice of medicine is not an exact science and that no guarantees can be or have been made concerning the expected results in my case.

I am undergoing treatment of my own free will. I agree that this procedure is being performed for cosmetic reasons. I am also aware of and accept the risk of unforeseen complications that may not have been discussed and which may result from this treatment.

I acknowledge my obligation to follow the instructions closely and visit the office as directed. I certify that I have read the above consent agreement and fully understand it. These items have been reviewed and discussed with the Acupuncturist and all my questions have been answered to my satisfaction. I also agree to hold harmless and release from any liability Acupuncture and Holistic Care or any of its officers, directors and/or employees for any condition or result, known or unknown that may arise as a result of any treatment that I receive.

Near and Far Infrared Light Therapy:

I consent to near and far infrared light therapy treatments. There are no side effects known so far. It is a completely safe and painless technique. There is no risk of burning. There are no absolute contraindications to light therapy but caution should be observed in some cases comprising of:

- Eyes vulnerable to photo toxicity
- Tendency towards mania
- Photosensitive skin
- Use of photosensitizing medicine or herbs

I UNDERSTAND AND AGREE TO THE TERMS ABOVE, THE INFORMED CONSENT.

CONTRACT IS BINDING.
